

PRODUCT OVERVIEW

MS Big Bag Powder Feed Supply System

Product type:

MS Big Bag Powder Feed Supply System

- With the use of big bag powder supply technology, powder coating equipment users can easily handle large volumes of powder coating material.
- A variety of automatic powder supply systems, including the MS Big Bag Powder Supply System, can be installed in the coating booth.
- This system is suitable for powder paint bags ranging from 400 to 1000 kg.
- The Big Bag Powder Supply System can be installed either as a standalone unit or in multiple configurations, depending on the customer's requirements.

Using a peristaltic-type powder supply pump, new powder is supplied via the MS powder pump.

This type of powder supply pump allows the big bag collection unit to be installed up to 50 meters away from the powder booth, helping to keep the painting area clean.

Features of the MS Big Bag Powder Supply System

Can be installed as a single unit or in multiple configurations
