

SERVICE BROCHURE

THINNER STREAMER

2023 - 2024

“

Thinner Streamer ensures reduced coating defects and improved appearance quality.

Thinner Streamer enables customers to reduce coating defects and improve appearance. Therefore, it makes a significant contribution to the coating process in terms of cost and quality.

SERVICE GUIDE

STABLE SUPPLY OF CUSTOMER'S ORIGINAL THINNER

We will design unique thinners that best suit your coating quality requirements. Coature Vietnam will also process the Thinner Streamer to ensure a stable supply.

Explore unique formulations to achieve customer differentiation.

We will listen carefully to the customer's requirements for coating quality. At the same time, we investigate the current coating environment and coating methods.

Analyzes accurately the composition of the current thinner

We use special equipment to analyze the thinner that you are currently using. We also investigate paints in detail as they also contain many solvents.

Effectiveness verification of Thinner streamer is also well supported

We will do verification of the proposed Thinner Streamer. Our support will continue until the client's requirements are realized and current issues are resolved. Our goal is not to stop there, but to work for further improvement as a long-term partner.

PARTNER COOPERATION WITH JAPAN'S TOP SOLVENT MANUFACTURERS

Our main product is paint, but to be your coating partner, we also offer thinner as a coating additive. Coature Group has a long history of cooperation with Daishin Chemical, Japan's leading solvent manufacturer, and we can benefit from their extensive technical support. We are confident of contributing to our customers' coating quality by utilizing their analytical capabilities and proposal services.

Minimizing the risk of employee health hazards

Employee health hazards caused by organic solvents are one of the most serious business risks. Safeguard your valuable human resources, who have spent a long time acquiring coating skills, from the risk of organic solvents. Thinner Streamer can help you achieve a safe and comfortable coating process.

Next-generation, environmentally friendly solvents are also available.

As environmental regulations around the world become stricter, the use of organic solvents will also face increasing restrictions. By following the example of Japan, which is a pioneer in the regulation of organic solvents, we can help you proactively switch to solvents that have less impact on the human body. We also have a wide variety of next-generation solvents such as nitrogen solvents.

Our thinner expertise can assist in the coating process, which has a significant impact on the value of your products. The key factors are solubility and drying speed.

Coating, the final step in manufacturing, is a very important step that has a significant impact on the value of our customers' products. In this coating process, thinner, which dilutes the paint, plays an equally important role as the main coating agent.

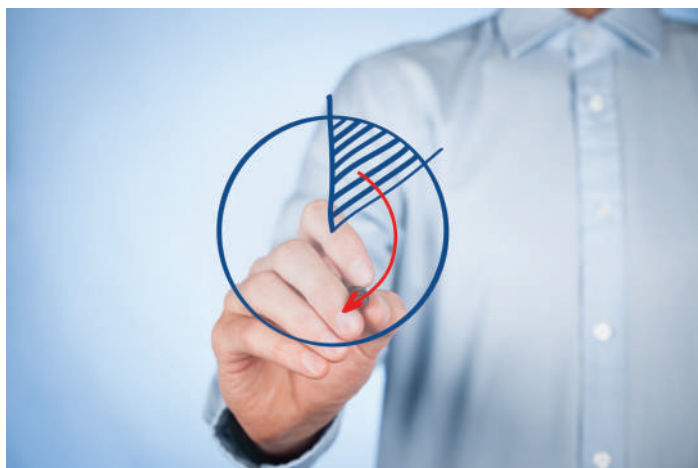

For this purpose, we contribute to the quality of our customers' coatings through the proper use of thinners. Specifically, we aim to improve coating appearance by providing thinners with appropriately adjusted solubility and drying speed.

The role of thinner is to reduce the viscosity of paints, which are initially manufactured with high viscosity, in order to make them paintable. In doing so, it sufficiently solubilizes resins that are difficult to dissolve, resulting in a smooth paint film surface. In addition, the drying properties of paints differ greatly from season to season, and stabilizing this change in the coating environment by adjusting the drying speed of the thinner is also an important factor in achieving a good appearance.

WIDELY FAVORED BY MOST JAPANESE COMPANIES IN DA NANG CITY.

Thinner Streamer has been the preferred choice for most Japanese companies in Da Nang since we started operations there. We also supply specialty solvents to leading paint companies in Hanoi, representing Japan.

OUR CORE SERVICES

Here is an overview of the services provided by Coature Vietnam. Coature Group, Japanese paint specialists, make your products unique and competitive through a variety of services. First, please feel free to contact us with your coating concerns. We will propose the best service to meet your challenges.

Paint Voyager

Coating with high value-added paints will transform your products into uniquely competitive ones. Coature Group, with its extensive knowledge of Japanese paints, can propose high value-added paints and deliver them to you efficiently, even in small lots.

Coat Expansion Partner

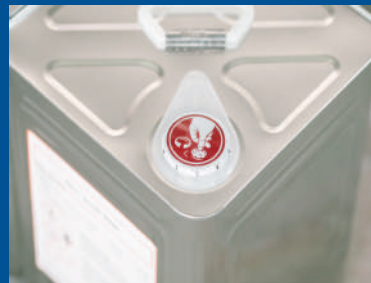

Supporting Japanese manufacturers in reproducing Japan-level coating quality at new factories in Vietnam. We act as a technical partner throughout the entire painting process, from feasibility and concept planning to on-site launch and stable operation, ensuring a smooth and reliable transition, as well as sustainable production performance.

Local Paint Development

Through strong collaborations with domestic paint manufacturers, we will explore and develop high-quality Vietnamese paint. We select products that fit your budget, propose production plans, and provide a consistent service from color-matching to any troubleshooting. This establishes a long-term business partnership.

Thinner Streamer

The quality of the solvent as thinners has a great influence on the stability of coating quality. We politely propose the most suitable thinner according to the customer's paint, the coating environment, and seasonal changes. Thinner Streamer is manufactured entirely in Vietnam, which also contributes to cost reduction.

COATURE GROUP'S MISSION IN VIETNAM

Through our Paint Service, we want to be of service to Japanese-affiliated enterprises working hard in Vietnam. Coature Group is a partner that resolves issues with customers through leveraging its knowledge and consulting skills in paints and coating.

PRINCIPLES

Challenge	<i>Our challenge is ongoing. In all of our activities, we aim to create new value through pursuing lofty results without fear of failure.</i>
Open mind	<i>We continue to pursue the needs of customers with an untiring spirit of inquiry. Moreover, with a fair mind free of prejudice, we strive to understand diversity of cultures and values between different ethnic groups.</i>
Active	<i>We always exhibit dynamism and place top priority on the frontline. Moreover, we aim to be an enterprise that acts and evolves globally.</i>
Teamwork	<i>We join forces to act as a single team. Moreover, as a team, we seek to share information openly and communicate freely.</i>
Unique	<i>We seek to be a unique presence for society through welcoming and realizing unique ideas.</i>
Right-people	<i>We always respect societal norms, and strive diligently to refine all personalities so that we can make right judgments based on universal human values.</i>
Expert	<i>Holding a professional sense of mission, each member of Coature Group seeks to further improve his or her expertise with a view to providing value that exceeds our customers' expectations.</i>

“

Coating for the Future

Our sole mission at Coature Group is to be your coating partner and to keep on contributing.
