

PRODUCT OVERVIEW

REA Hand Gun

Product Type:

HD-01
High-Voltage Generator

REA-21R
(External high-voltage generator type)

REA Hand Gun

The REA gun has continued to evolve alongside the history of electrostatic coating—essentially the history of Ransburg itself. While fully retaining its well-refined coating performance, it further enhances maneuverability and provides a comfortable, fatigue-free grip, all condensed into an ultra-lightweight body of 470 g (600 g for the REA-21). The REA series is recognized as a world standard in electrostatic hand spray guns.

Technical Specifications – REA-21R

Model	REA-21R
System type	External high-voltage generator type
High-voltage controller / generator	HD-01
Gun body length / weight	247 mm / 470 g
Maximum output voltage	–60 kV
Paint type	Solvent-based paint
Maximum atomizing air pressure	0.7 MPa
Paint supply pressure	0.4 MPa
High-voltage ON/OFF switch on gun	Not equipped
